

KAVINITHI SERA

+91 7339133297 • nithisera@gmail.com • linkedin.com/in/kavinithi-sera • github.com/kavinithi-sera

Third year BCA(Honours) undergraduate with hands-on experience building NLP pipelines, LLM-integrated applications, and full-stack products from prototype to deployment. Seeking an internship in AI/Gen AI Engineering to apply and grow these skills within a real-world engineering team.

INTERNSHIP EXPERIENCE

Student Intern — Elait IT Technology Services Pvt. Ltd., Chennai

Apr 2025 – May 2025

Built a voice-controlled Point-of-Sale proof-of-concept (Angular, Node.js, Express.js, PostgreSQL) supporting 5 categories of voice commands via Web Speech API integration, enabling hands-free retail transactions.

PROJECTS

Wavelength — AI-Powered Music Companion

github.com/kavinithi-sera/wavelength-music-companion

Developed an emotion-classification pipeline (NLTK, TF-IDF, Logistic Regression) trained on 168K+ samples across 7 mood categories, achieving 57.2% accuracy; exposed via FastAPI and integrated with Gemini for lyric generation and Spotify for playlists.

E-Commerce Fraud Product Detection — Web Extension

github.com/kavinithi-sera/ecommerce-fraud-product-auditor

Built the NLP engine for a Chrome extension detecting fraudulent listings via a hybrid engine combining price-anomaly detection, TF-IDF/cosine-similarity review checks, and Gemini-based review interpretation across 5 risk categories.

Resume Reviewer AI — Web App

github.com/kavinithi-sera/resume-reviewer-ai

Developed a Python/Flask application using Gemini AI to score resumes across 4 metrics and generate optimized versions.

CrowdControl — Sports Event Management System

github.com/kavinithi-sera/crowd-control

Built a real-time AI platform prototype for stadium crowd management with 4 core modules using Python, FastAPI and Gemini AI.

EduBridge — Peer-to-Peer Learning App

github.com/kavinithi-sera/edubridge-learning-app

Engineered an android tutoring app (Kotlin, Firebase) with a credit-based peer teaching/learning economy.

SKILLS

Programming: Python, Java, C++, TypeScript, JavaScript

AI/ML & NLP: NLTK, Pandas, NumPy, Scikit-learn (TF-IDF, Logistic Regression), Google Gemini API

Web & Mobile: React, Angular, Node.js, Express.js, FastAPI, Flask, RESTful APIs

Data & Tools: SQL (MySQL, PostgreSQL, Oracle), Git/GitHub, VS Code, Google Cloud Run, Firebase

Soft Skills: Leadership, Technical Writing, Public Speaking, Problem-Solving and Collaboration

Languages: English — Fluent | Tamil — Fluent | Hindi — Basic | German — Basic

LEADERSHIP & CO - CURRICULAR

- **Overall Head**, AfterHours Productions (Theatre Club), CHRIST University — leading a 200+ member team
- **Content Creator (Script Writer)**, Samagra (Computer Science Association), CHRIST University

ACHIEVEMENTS

- Presenter, IoT Research Paper "Sustainable Green IoT through Energy Harvesting" — ICAITCA-2026 International Conference
- Top 3, "AI Challenge" Category — IESMCRC Ideation Hackathon 2.0

EDUCATION

CHRIST (Deemed to be University), Bengaluru

July 2024 – May 2028

Bachelor of Computer Applications (Honours) – GPA: 3.7/4.0

The PSBB Millennium School, Chennai | CBSE

Class XII: May 2024 · Class X: May 2022

Class XII – 89.0% | Class X – 97.0%
